Dear Sir:

Attached is a translated version of Fig. 82.

Statement of Unintentional Delay

The undersigned attorney representative is in a position to have firsthand or direct knowledge of the facts and circumstances of the delay at issue. The facts and circumstances of the delay are as follows:

The present application was assigned to TPO Hong Kong Holding Limited (“TPO”) prior to the November 21, 2006 mailing date of the Notification of Defective Response, pursuant to an earlier agreement between TPO and the assignor Koninklijke Philips Electronics (“Assignor”). TPO entrusted the present application to the undersigned prior to November 21, 2006. Due to delays in obtaining a short form assignment from the Assignor (instead of using the lengthy agreement between the parties) for recordation at the Patent Office, recordation did not take place until April 2007, and accordingly the change in power of attorney to appoint the undersigned did not take place until May 2007.

Nonetheless, the present application has been under the responsibility of the undersigned since as early as prior to November 21, 2006, the mailing date of the Notification of Defective Response. TPO did not intend to abandon the present application, and the undersigned did not receive any instruction from TPO to abandon the present application.

Given the recordation of the present application despite the delay in assignment recordation and change in power of attorney, it is also clear that TPO intended to maintain this application between the period of November 21, 2006 and May 23, 2007, when the change in power of attorney appointing the undersigned was filed.

Accordingly, the entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 CFR 1.137(b) was unintentional.

Respectfully submitted,

Dated: January 22, 2008
